

TENCEL™ PANEL

Crafted with natural TENCEL™ fibers, this ultra-conforming knit panel is hypoallergenic, breathable, and features technology that delivers cooling comfort throughout the night.

AIRE-ADAPT™ MEMORY FOAM

Revolutionary open-cell material, infused with Graphite for superior heat dispersion, ensures a consistently cool and comfortable sleep with antimicrobial properties.

ADVANCE MICRO-TOUCH COIL™

Hundreds of micro-touch points act like tiny springs, evenly distributing weight for responsive support and pressure relief.

WRAPPED COILS

Individually wrapped coils that are durable and supportive, they offer superior pressure relief along the shoulders, back and hips. They also help aid shock absorption to minimize motion disturbance between sides.

LUXURY HYBRID FIRM

AIRELOOM.
CALIFORNIA DESIGN · HANDMADE
